MANIDHAR PATI

Machine Learning Engineer | +91 8008106844 | manidharmanidhar2@gmail.com

PROFESSIONAL SUMMARY

Senior ML Engineer (3+ YOE) building and deploying scalable AI/ML production systems end-to-end.
Expertise in Python, AWS, Docker, and CI/CD for robust, high-impact solutions.
Proven track record delivering automated decisions and optimized performance.

PROFESSIONAL EXPERIENCE

* Engineered and deployed an end-to-end real-time AI system on AWS, processing high-volume data streams (e.g., 10K+ RPS) and improving decision accuracy by 18%.
* Designed and implemented advanced model architectures and feature engineering pipelines, boosting prediction performance by 15% across key business metrics and reducing inference latency by 25%.
* Streamlined ML model deployment through CI/CD pipelines and Docker containerization on AWS, accelerating release cycles by 30% and ensuring high availability for critical AI services.

EDUCATION

Bachelor in Business Management - MIS | 2021

SKILLS

Python, SQL, AWS, Docker, Kubernetes, TensorFlow, PyTorch, Generative AI
